LOCAL BREVITIES, Matters of Minor Moment in and About the City.

THE council committee on streets, alleys and grades is called to meet this

OFFICER MCCAUSLAND last night locked up John Thorp, a South Sider, on a plain drunk charge.

SATURDAY, August 3, the trustees of Boggs Run school met and elected Miss Hattie R. Davis teacher.

YESTERDAY'S rain was scarcely heavy enough to do much good. It did not even perceptibly cool the atmosphere.

ALMOST every man one meets this changeable weather complains of having a bad cold, with symptoms of the grip. CLERK Hook yesterday admitted to record a deed made July 27 by John Wasmuth and wite to Peter Schmidt, for \$500, a lot fronting fifty feet on Wetzelstreet.

The disordural send one drupk made

Wetzolstreat.

Tan disorderlies and one drunk made up the docket of the police court yesterday. Six prisoners went to the hill, two paid their fines, and three were let go on promising to leave town.

A LIGHT came of varioloid developed yesterday on Eightsenth street, a Mrs. Brown being the patient. Smallnox had existed some time ago on both sides of the Brown house. The woman was removed to the smallpox hospital last night.

YESTERDAY forenoon Joseph Kannon, YESTRIDAY FOREGOON JOSEPH KARNON, the hack driver arrested Sunday for profane swearing, was given a hearing by Squire Fitzpatrick, and was fined \$1 and costs. In detault of the cash he was committed to jail.

was committed to jail.

The Acme Portrait Company, which makes portraits "free of charge" and then charges \$\(\tilde{\til

A horse and buggy belonging to Gus Mager was left on Thirteenth street in front of Sherfee's grocery yesterday, and the horse wandered across the street, leaving the buggy straight across the road. Another buggy that came down street struck Mager's, knocking it and behave over. No great damage was the horse over. No great damage was

done.

This Brilliant Iron Company is dismantling its works at Brilliant and the mill there will soon be a thing of the past. This was one of the best built and equipped nail mills along the Onio valley and the Spanlidings and the present company expended at least \$230,000 on this plant, which now would not sell for \$25,000.

Death of Mrs. Thomas Rennedy.

Peath of Mrs. Thomas Rencedy.

In another part of this morning's paper is announced the death of Mrs. Elsie Kennedy, wife of Thomas Kennedy, in the twenty-sixth year of her age. Her early demise will be sincerely mourned by a wide circle of friends. She was the daughter of Mr. Edward Manion, and the sister of Thomas Manion. ion, a well known superintendent at the Riverside works. She had had ty-phoid lever for some time, but a fatal termination of her illness was not an-ticipated until within a few days.

For Destroying Property

Henry Kries and Julius Hotfire were arraigned before Squire Phillips yester-day, charged by Kries's brother, Fred, with malicious destruction of property, at his home near Willow Springs, up the river. They gave bend for their appearance this evening for a prelimi-nary hearing.

Pitcher's Castoria.

THE NEW FIRE ENGINE,

The Big Ahrens Machine Arrives and is Ready for Service.

PUBLIC TEST WILL BE MADE TO-DAY

Mr. Ahrens, of the Company, Here, and Chief Heaty Home-The Council Committee on Fire Department Cailed to Meet and Witness the Trial of the Engine Before Accepting it as Fullfilling the Con-

The city's new fire engine, to take the place of the wrecked Atlantic, arrived sooner than was generally expected. It came in over the B. & O. road at an early hour yesterday morning, and in the forenoon was unloaded and run into the old Atlantic house. It is a pretty machine, and looks rather out of place in the dispidated, battered old structure that covers it. Its brightness only emphasizes the dinginess of the stained walls, broken floor and leaky roof. The little old substitute engine with the big redord which has twice done duty here while new ones were being built was at once loaded on the car and will be sent back to Cincin-

Mr. Abrens, of the company which manufactures the engine, accompanied it, to superintend the test which the contract calls for before the machine is it, to superintend the test which the centract calls for before the machine is accepted by the city as up to the guarantee. This test will be very interesting. The engine is much larger than any of the others in use here. It works on a different principle, also, from the others. It has a piston motion, instead of the rotary mechanism of former Ahrens patents. Decidedly greater power is claimed for it than possessed by any other steamer ever owned by the city. The public test, showing the capacity with one stronm and with several, will be made shortly after 0 o'clock this evening. Chief Healey got home from Atlantiq City last evening, and after a consultation between him, Charman Jake Britt and Clerk C. W. Watkins, of the committee, it was concluded to have the test as soon after 6 as the committee could be gotten together, and a call was therefore issued for it to meet at that hour.

The engine will first be tried on Chapline street in front of the public building, where a thirty-inch main guarantees an adequate supply of water for all purposes. It will then be taken to the corner of Foll and Eighteenth streets, adjoining the Red Letter tobscco works, where its capacity for throwing a high stream will be tried.

The idea of having the Niagara engine tried at the same time and place, so as to show the relative power of the two.

The idea of having the Niagara engine tried at the same time and place, so as to show the relative power of the two, has not been officially slopted, but many people yesterday expressed the hope that this would be done. It would make the test doubly interesting.

As remarked before, the new engine is a beauty. The boiler jacket is painted black, but all other metal parts are either nainted red and gold or plated with nickel. The nickel shines like a mirror, and if the engine is as good as it looks, it will be something for Wheeling to be proud of for years to come.

THE GAS BOARD'S STATEMENT Gone Over by the Council Committee on Accounts last Night.

Last night Messrs. J. D. Maxwell,

John Waterhouse and H. C. Richards, the members of the council committee on accounts, met in the city gas office and made a careful examination of the itemized statement of receipts and exitemized statement of receipts and expenses of the gas works submitted to council by the board of trustees last week. The items were compared with the entries on the books, and found to be all straight and correct. A report will be made by the committee to this effect at the next meeting of council. The statement was referred to this committee by council the same night that a special committee of three was named to investigate the gas board. That committee has not yet been called to meet, and probably will not be until the time for the monthly discount of gas bills is past.

Our Parting Shot Sale Continued. We add to our remnants this morning: Fine French Fiannel, worth 50c, at 20c. 25c Fiannel for 10c. 5c Canton Fannel, 3c. 75c and \$1.00 Silks, 25c. 12e Skirting, Sc.
